

Neil Mitchell

Journey Specialist – Product & Regulatory | TD Insurance

Saint John, New Brunswick | 506-639-9083 | neil.mitchell@tdinsurance.com

PROFESSIONAL SUMMARY

Product-focused journey and platform professional with strong experience shaping high-level requirements, defining product intent, and driving delivery across core insurance platforms and digital journeys. Proven ability to lead complex product initiatives, manage delivery risk, and align cross-functional teams within Guidewire-based environments. Positioned for Product Owner leadership in complex, platform-centric products.

WORK EXPERIENCE

Journey Specialist – Product & Regulatory (GI Journey)

TD Insurance | 08/2025 – Present

Strategic Product & Regulatory Knowledge (SPARK)

- Own high-level product requirements and feature definition for core Guidewire PolicyCenter initiatives, including AI RSP and DASH (Detailed Automobile Search History).
- Shape product scope, sequencing, and prioritization to support delivery milestones across multiple pods.
- Partner closely with BAs and platform teams to translate product intent into detailed requirements and implementation-ready stories.
- Drive product trade-offs and risk management across product, technology, and data stakeholders.
- Contribute to roadmap planning and cross-initiative alignment for core platform capabilities.

Journey Specialist – Digital Service Performance (GI Journey)

TD Insurance | 02/2024 – 08/2025

Digital Service Performance (MyInsurance)

- Owned high-level product requirements and feature definition for customer servicing journeys within the MyInsurance platform.
- Led backlog refinement and story shaping to translate product intent into BA-authored detailed requirements.
- Drove cross-pod coordination and release readiness for MyInsurance enhancements.
- Partnered with technology and operations to manage delivery risk and sequencing across digital initiatives.
- Built deep domain expertise in digital servicing operations and MyInsurance platform capabilities.

Vendor Analyst II

TD Insurance | 04/2020 – 02/2024

Claims Operations Support (VMO)

- Managed enterprise Accounts Receivable process on a quarterly cadence, processing 80,000+ invoices totaling \$55MM+ in outstanding payments.
- Designed and implemented VBA automation pipelines for data aggregation and reconciliation, improving cycle time and accuracy while substantially reducing vendor escalations.
- Led weekly progress and delivery reviews with stakeholders across multiple business lines.
- Recognized as TDI All Star Recipient (2022) for delivery excellence and stakeholder leadership.

Claims Advisor

TD Insurance | 04/2019 – 04/2020

Claims Response Office (CRO)

- Handled inbound FNOL and outbound accident benefits calls, opening exposures and preparing claims for initial adjuster contact.
- Built foundational knowledge of claims intake workflows, accident benefits processes, and operational handoff to adjusting teams.
